From statutory services to business growth, we have the expertise that you need. Here are just some of the services we can support you with...

Statutory Accounts & Audit

If you are a limited company then you are required to prepare accounts that must be filed with Companies House in a statutory format. We can remove this anxiety by doing this for you. Where an audit is also required we carry out an objective and cost effective audit. We can help you get your records and accounts in to a condition that will make your annual audit a short and painless process.

Bookkeeping

We can relieve you and your business of a significant burden by our in-house bookkeeping bureau.

Management Accounts

The most important part of our compliance services is the preparation of periodic management accounts. Monitoring and controlling the financial performance of your business is of paramount importance and regular management information is vital to the continued success of your business.

Company Secretarial

When running a hectic business you cannot afford to use valuable time making sure you are complying with the Companies Act. However you do need to be aware how this legislation affects your company and its directors. We can take away this stress by carrying out the company secretarial duties for you.

“ Our sustained growth has been achieved not only through hard work, but by receiving good advice. Hallidays expertise has provided a solid foundation for us to build from. ”
