An example of why HR is so important

Successful local business James Pugh & Sons Ltd have a growing team of 20+ people. Their MD, found he was spending too much time on HR and becoming disillusioned with his HR suppliers.

- He was frustrated with the impersonal service
- Never speaking to the same person
- Constantly having to recap issues
- All of this took valuable time away from running his company

They chose HER, which means that the MD is able to largely 'ignore' HR. He is confident that when there is an issue he will receive prompt, personal and timely advice. He knows that he will be updated on any employment law changes and that we will help him to be an even better employer! He is also getting to grips with auto enrolment, salary sacrifice and a range of employee initiatives with our help and support.
